PROFILE

I am a highly skilled software developer with 2 years of experience, specializing in web technologies and building robust solutions. My expertise includes mastering Laravel (PHP), Node.js, and React for developing web applications and interactive platforms. I possess a deep understanding of database design and development, including SQL and NoSQL, enabling me to implement efficient and scalable systems.

Moreover, I am well versed in AWS (Amazon Web Services) and have experience working with EC2 to deploy and manage applications in the cloud. I have demonstrated problem-solving abilities and the capability to debug complex code, ensuring the delivery of high quality, error-free software.

My passion for technology and focus on staying updated with the latest trends in web development enable me to tackle new challenges and provide innovative solutions to the projects I engage in.

EMPLOYMENT HISTORY

Toutatis LATAM

Software Developer | October 2022 – Currently

At Toutatis Latam, I hold a key role as the sole developer and support provider for a PHP-based application, utilizing technologies like AngularJS, to address technical challenges and ensure optimal platform performance. Simultaneously, I lead the development of an exciting new platform using Laravel and React, streamlining employee management and enhancing overall efficiency. With a proactive approach to problem-solving and a passion for staying updated with industry trends, I consistently deliver high-quality results. Thriving in dynamic environments, I am committed to contributing to Toutatis Latam's growth and success.

As a dedicated software developer with a comprehensive understanding of various technologies, I play a pivotal role at Toutatis Latam. My support and development efforts for the existing application demonstrate my ability to enhance user experience and maintain seamless operations. Moreover, my leadership in creating a new platform using cutting-edge technologies showcases my commitment to optimizing processes and driving innovation within the company. Adaptable and driven, I am eager to leverage my expertise and contribute to the continued success of Toutatis Latam.

Freelancer

Developer Software | June 2021 – August 2022

As a freelance software developer, I specialized in crafting bespoke e-commerce solutions using Laravel, PHP, and jQuery. In two successful projects, I designed and developed custom e-commerce platforms tailored to the unique needs of my clients. Leveraging the power of Laravel, I ensured robust backend operations, seamless data management, and secure paymente processing.

Meanwhile, jQuery enabled me to create dynamic and user-friendly frontend interfaces, enhancing the overall shopping experience for customers. Through my expertise and dedication, both e-commerce projects were delivered with excellence, contributing to increased sales and customer satisfaction for the respective businesses. As a freelance developer, I took pride in providing cutting-edge web solutions that aligned perfectly with my clients' requirements and helped them achieve their business objectives.
